

ESSENTIALS OF IMPLANTOLOGY

06/04/2024

COURSE PROSPECTUS

Dr O'Hooley & Dr Leeson

ON THE DAY

9:00 am - 10:00 am

Dental implants and treatment planning rationale with Dr Kris Leeson

10:00 am - 11:00 am

Introduction to the theory of 'True Host Bone Regeneration' with EthOss, discussing the scientific background and practical application of synthetic materials in grafting with Dr Dominic O'Hooley

11:00 am - 11:15 am

Coffee break

11:15 am - 12:00 pm

Case review exploring delayed placements, immediate placement delayed loads, immediate placement immediate loads and coping with failures with Dr Dominic O'Hooley

12:00 pm - 12:45 pm

Case Review: Flap Design and Soft Tissue Management in Implant Cases with Dr Kris Leeson

12:45 pm - 1:30 pm

Lunch Break

1:30 pm - 2:45 pm

Hands-on Training: Different Flap Designs and Soft Tissue Management

2:45 pm - 3:00 pm

Coffee Break

3:00 pm - 4:00 pm

Hands-on Training: Socket Grafting and Suturing Techniques

4:00 pm - 4:30 pm

Q&A

ON THE DAY

More about the course

This intensive one-day course delves into the fundamental aspects of implant surgery covering the entire surgical process from meticulous planning, flap design, bone grafting to suturing techniques. Starting with an in-depth look at bone biology and osseointegration fundamentals, with a focus on the role of innovative alloplastic materials in fostering vital host bone growth.

Led by renowned experts, Dr Dominic O’Hooley and Dr Kris Leeson, the course encompasses a thorough examination of both digital and non-digital treatment planning. Through insightful case studies, they discuss diverse clinical applications and the strategies to approach each surgery effectively. Participants will gain comprehensive knowledge of various surgical procedures, equipping them for a successful practice.

ABOUT THE SPEAKERS

Dr Kris Leeson

I am the principal dentist/owner of Thorpe Dental Group York. I graduated in 2005 from the University of Leeds.

More about Kris

He has a special interest in dental implantology, and has completed his Masters degree in implant dentistry from the University of Warwick. He completes a variety of implant procedures including immediate load full arch treatments. Kris has a particular interest in the treatment of anxious patients and has gained extensive experience in the use of intravenous sedation. Kris utilises digital technologies for his implant planning, during surgery and final restorations.

BChD, MSc (Implants) ●

MJDF RCS (Eng) ●

PGcert (Healthcare education) ●

ABOUT THE SPEAKERS

Dr Dominic O'Hooley

I qualified from Liverpool University in 1993 and after working in hospital dentistry, I have been committed to private dentistry for over two decades.

More about Dom

- FCGDent (UK), BDS
- MFDS RCS (Eng)
- MFDS RCPS (Glasg)
- MAGDS RCS (Ed)

Placing and restoring dental implants for many years, Dominic is extremely experienced at bone grafting, sinus lifting and aesthetically challenging cases. Dominic enjoys pushing the boundaries and has been deeply involved in exploring the potential of the Southern Inverta implant paradigm. In addition to Inverta, he uses Southern site-specific implants as the core of his implant practice, often in synergy with alloplastic grafting with EthOss and novel bone manipulation techniques. He lectures worldwide and writes extensively in the dental press, becoming someone who has been second to none in exploring forensic detail at dental regulation.

DIRECTIONS

Address:
Woodthorpe Dental Centre,
47 Moorcroft Rd,
Woodthorpe, York,
YO24 2RQ

[View on Google Maps](#)
